Technical specifications on rear ▶

3-BEARING CRANKSHAFT

Reduced operating wear and a clean cut thanks to the 3-bearing crankshaft with blade support.

ROBUST DESIGN

Galvanised steel mulching unit with reinforced edge. Stable guide bar with height adjustment.

MULCHING BELL MADE FROM HIGH-GRADE STEEL

The tough, durable mulch mower made from high-grade steel guarantees a perfect cut.

PERFECT MULCHING, REDUCED WORK

While you are mowing, the grass is shredded several times and reduced to a fine mulch in the mulching unit. The mulched cuttings then disappear between the remaining blades of grass where they quickly rot away. **No grass collector, no stopping, no emptying, no need to get rid of the cuttings!**

SIMPLE MANOEUVRING

Stable, front and rear wheels with ball bearings combined with rear-wheel drive guarantee energy-saving manoeuvrability.

Recommended retail price inc. VAT.
